

Stellar Edge™ 3.0

Mission Control for your Microgrids

Rugged, Smart Power Systems Controller

Stellar Edge™ is innovative IoT (Internet of Things) hardware for remote data acquisition, sensing, and control. Stellar Edge™ executes commands for all distributed power system components and streams data to the cloud visualized by New Sun Road's Stellar Microgrid OS™ software platform.

Hardware-agnostic, Stellar Edge™ is compatible across a wide range of protocols, power ranges and devices. With local caching capabilities, the controller protects against data loss during network outages. Hybridized local and cloud-based architecture enables control optimization via machine learning and ensures availability of real-time insights anytime, anywhere. A local display facilitates installation and testing. Compact, cost-effective and robust.

Key Features	Local logging and data cache protects against data loss Configurable sampling rate: as high as 1s Designed for proximity to power and communication electronics Local interface for display of key metrics Industrial, metallic, din mount enclosure Broad input voltage range. Simplified BOM for DC systems.
Interfaces	Wi-Fi (802.11AC) 1x RJ45 (10/100/1000 Mbit/s) 1x I2C expansion 1x 1-wire for climate sensing 2x USB 2.0 socket 2x USB 3.0 socket 1x Isolated RS-485 Modbus RTU 1x Isolated CAN-Bus (2.0/FD) 8x 24 VDC digital inputs (Current Sinking) 4x 24 VDC digital outputs (High side switch, 1A max/channel)
Power	18-70VDC (5W average, 15W peak)
Environmental conditions	Ambient operating temperature: -20°C to +60°C Humidity: 93% (non-condensing) Protection class: IP40 FCC Part 15B Certified (radiated emissions)

Dimensions	120 mm x 120 mm x 60 mm (5 in x 5 in x 2.5 in)
Weight	0.5 kg (1.1lb)
Warranty	2 years from date of shipment

Enclosures, accessories and Stellar Edge RM

New Sun Road can mount Stellar Edge™, a connectivity kit and other electronics in an enclosure. Connectivity kits which include a modem and antenna are also available separately.

Stellar Edge now also comes in a rack mounted version. Stellar Edge™ RM fits into a standard 1U electronics cabinet slot. The modem can easily slide in on the left side or be added at our factory.

Stellar Edge™ RM

Stellar Edge™ RM installed in an electronics rack.
